ryan@ryanancheta.com

Experienced full-stack developer passionate about crafting customer-centric products and tackling intricate engineering challenges.

## Professional Experience

### Software Developer | Senary LLC. | Los Angeles, CA

Dec 2023 - Present

- Build bespoke websites/web applications for clients using modern technologies (React frameworks)
- Perform website maintenance for clients to ensure reliability and performance
- Leverage React framework Next JS and global state management framework Redux
- Leverage CSS preprocessors Sass + CSS modules, Tailwind

### Software Developer | Saucey/Emjay | Los Angeles, CA

Mar 2020 - Dec 2023

- Spearheaded the enhancement of sign-up flows, resulting in a noteworthy 10% increase in conversion rates.
- Global state management handled with Redux + Redux Toolkit for debugging
- Developed a multi-vendor inventory feature, elevating Average Order Value (AOV) by 5%.
- Resolved critical production software defects, significantly improving user experience and mitigating UX pain points.
- Implemented Storybook UI, ensuring UI component uniformity and collaboration efficiency between development and design teams.
- Addressed and fixed various production software defects which improved user experience and relieved many UX pain points
- Collaborated closely with product teams and UX designers to optimize user experiences.
- Contributed to various server-side API tasks utilizing Golang and Node.js.
- Leveraged global state management using Redux + Redux Toolkit for debugging

### Quality Assurance Specialist | Saucey | Los Angeles, CA

Feb 2019 - Mar 2020

- Ensured software quality by minimizing defects throughout the software development lifecycle.
- Conducted comprehensive testing, including regression, user, acceptance, and smoke testing, resulting in robust, high-quality software releases.
- Managed bug databases and test suites, maintaining system integrity as software systems expanded.

UX Designer/Scrum Master | National Carrier Exchange | Los Angeles, CA  
Nov 2014 - Mar 2015

- Collaborated closely with front-end developers to design intuitive user interfaces.
- Orchestrated team sprint cycles, facilitating seamless project execution.
- Led Scrum rituals to promote team efficiency and productivity.

## Education

California State University Northridge  
Bachelor of Science in Computer Science  
Sep 2017 - Aug 2020

## Skills

Javascript, ReactJS, NextJS, Gatsby, redux, redux thunk, redux toolkit, HTML, CSS, CSS modules, Sass, graphql, git, C++, Java, NodeJS, Golang, python, wordpress, php, debugging, responsive mobile first design, UX/UI, SCRUM, Agile methodologies, problem solving, effective + concise communication, collaboration, attention to detail, e-commerce
